

CURRICULUM VITAE

Name: Mert Kaya
Email: mert.kaya@example.com
Location: Ankara, Türkiye

EDUCATION

B.Sc. Computer Engineering
Hacettepe University
2024 - Present

TECHNICAL SKILLS

Programming:

- Python
- Java
- JavaScript

Web:

- HTML
- CSS
- React

Backend:

- Basic Node.js knowledge
- Basic REST API knowledge

AI:

- Used ChatGPT and Claude for personal projects and university assignments
- Basic understanding of prompting
- No production experience with LLM APIs

Tools:

- Git
- GitHub
- Cursor

PROJECT EXPERIENCE

University Library Application
2025

- Developed a small web application using React and Node.js.
- Consumed an existing REST API.
- Implemented search and filtering functionality.
- Worked with JSON responses and HTTP requests.

Python Data Analysis Project
2025

- Used Python and pandas to analyze a public dataset.
- Built simple machine learning models.

- Used ChatGPT to help understand unfamiliar Python libraries.

PERSONAL AI EXPERIMENTS

I have experimented with ChatGPT and Claude to understand how LLMs can be used in software development. I have also tried generating small Python scripts with AI assistance.

I have read introductory articles about AI agents and MCP, but I have not yet built an agent or MCP integration.

LEARNING STYLE

When I encounter something unfamiliar, I usually search the official documentation and look at example projects. I am interested in learning more about backend development, APIs and AI systems.

ADDITIONAL INFORMATION

I have not used n8n, Zapier, Make or Apify yet. I have used Cursor for coding assistance.
